

MIDA SAN 311 KZ

Liquid alcohol based disinfectant
for the food industry and institutional hygiene

DESCRIPTION & APPLICATION

MIDA SAN 311 KZ is a non-foaming, ready-to-use sanitizer for intermittent and terminal hygienic treatments in the food and beverage industry and other sectors of industry and services.

MIDA SAN 311 KZ is safe for the treatment of surfaces which come in contact with food.

MIDA SAN 311 KZ rapidly evaporates after its hygienic action and does not leave any residues.

MIDA SAN 311 KZ is therefore particularly suitable for use on wide range of surfaces such as chopping boards, water sensitive installations, conveyor systems.

USE INSTRUCTIONS

MIDA SAN 311 KZ is used as a ready-to-use sanitizer, apply and let dry. Avoid aerosol formation, application in the vicinity of unprotected electrical equipment or use on hot surfaces.

MIDA SAN 311 KZ is used for rapid disinfection of equipment (cutting equipment, slicing, wrapping and filling machines and other equipment, machines, tools and instruments) after a predetermined production cycle, including between individual phases of production.

PRODUCT CHARACTERISTICS

Composition	Contains isopropanol, n-propanol
Appearance	Clear liquid
Colour	Colourless
Odour	Characteristic of the product
pH (1%)	± 9,0
Density	± 0,86 g/cm ³ (20°C)
Solubility	Miscible in water in all proportions

MATERIAL COMPACTIBILITY

When **MIDA SAN 311 KZ** is used according to the recommended use instructions, then **MIDA SAN 311 KZ** can be used on materials commonly used in the food industry.

In case of uncertainty we recommend to evaluate individual materials before any prolonged use.

ENVIRONMENT

MIDA SAN 311 KZ does not contain any chlorine and hence there is no risk of the formation of organic adsorbable halogens (AOX).

The surfactants of **MIDA SAN 311 KZ** comply with the European Union Directive EU648/2004 on the biodegradability of surfactants.

SAFETY

Never mix **MIDA SAN 311 KZ** with other products. Carefully read the material safety data sheet of **MIDA SAN 311 KZ** and follow the chemical handling and disposal guidance.

STORAGE

Store **MIDA SAN 311 KZ** in its original packaging between 5°C and 25°C. Do not expose to direct sunlight. The expiry date is 12 months from date of manufacture.

PACKAGING

MIDA SAN 311 KZ can be available in CAN.

Biocides reliably use. Before use always read marking and product information!
